EXHIBIT D Recommendation for Additional Investigations

Additional investigations by other professionals may be necessary if the FCA Field Inspector observes conditions that cause concern regarding the soundness of the structure, the systems, and/or threats to the overall health and safety of the occupants.

It is the opinion of the FCA Field Inspector (Check the appropriate box)

No, we have no concerns that warrant additional investigation
Yes, there are concerns that warrant additional investigation. The Field Inspector has observed conditions at his property that cause concern and it is our recommendation that further investigation be performed by one or nore of the listed Professionals who are technically qualified to determine the cause and remedy for such conditions. In the reasons for recommendation, indicate the number of the recommended Professional.

	1. Architectural		6. Indoor Air Quality	
	2. Building Envelope		7. HVAC/Mechanical Engineering
