
ANNOUNCEMENT

TO: GeorgiaFIRST Financials Users

POSTED: May 14, 2019

SUBJECT: PeopleSoft Financials Update 5.46 Successfully Applied to Production

PeopleSoft Financials Update 5.46 was successfully applied to production (FPROD). These systems are now available:

- GeorgiaFIRST PeopleSoft Financials production (FPROD)
- PSQUEST
- GeorgiaFIRST Marketplace
- Expenses and ePro Self-Service Portal

The system cache was cleared as part of the release process, so initial performance may be slower than normal the first time users use the application after Release 5.46.

Clearing Browser Cache

ITS recommends all users clear their Temporary Internet Files (browser cache) before logging back into the system. It is highly recommended that all users clear their browser cache often, especially after an update is applied to the Production database. Go to the GeorgiaFIRST Financials website for [instructions on how to clear your cache](#).
